Fushimi-Inari Taisha

For changing foods culture

Traditional foods that never change

**Delivered from the ancient capital
of Kyoto**

○ About us

We have a special contract with Fushimi, the largest Gekkeikan, and Takara Shuzo (Shochikubai) for many years.

In addition to local sake breweries, Niigata Shirataki Sake Brewery, which is known for its Jozen Mizuno Gotoshi, and other breweries all over the country, we purchase high-quality sake lees.

Since Kyoto is a production area for bamboo shoots, we have been handling bamboo shoots since our founding. In recent years, we have purchased bamboo shoots from China and processed them in-house.

Shortly after the war, we began to purchase Japanese pepper from Korea.

We process domestic and Korean real Japanese pepper. It is used in a wide range of dishes such as food boiled in soy and Japanese restaurants.

Greeting

Our company is located in Fushimi, Kyoto, one of Japan's leading sake breweries, and handles sake lees, bamboo shoots, and Japanese pepper. Founded in the Taisho era, we have a track record of more than 60 years since 1954 when we became a corporation.

In recent years, in line with the changes and demands in the "food" environment, which has undergone major changes, We will strive to deliver to everyone while making use of the unique know-how that we have cultivated so far. All of our employees will continue to strive to provide valuable products and services. We appreciate your continued support and patronage.
